

## SETTING UP THE GEAR VR CONTROLLER

1. From the Home screen of your mobile device, swipe down from the top to reveal another menu.
2. Find the symbol for Bluetooth and turn it on if it is not already on.
3. To enter pairing mode on the controller, press and hold **Home** on the controller.

4. From your mobile device's Bluetooth menu, touch **Gear VR Controller**.

5. Touch **ACCEPT**.
6. Follow the on-screen prompts to calibrate the controller.
7. When calibration is finished, keep the controller near the phone and VR headset while seating the phone and using the device so as not to lose the pairing.

## **Switching Between Right/Left Handed**

1. Press and hold **Back** on the side of the Gear VR or on the controller to access the Universal Menu.
2. Select **Settings**.
3. Select **Right Handed/Left Handed** to change the setting to the other hand.
